

Dear Parent / Guardian,

This is a courtesy letter to inform you that your child's class is now using a free version of Studyladder, an online educational program which allows students to learn at their own pace.

About Studyladder

Studyladder is a K-6 web based educational program designed by teachers. The program is curriculum based and covers Mathematics, Literacy and 8 other subjects. Your child has been given a username and password which can be used to access Studyladder.

Using Studyladder

It is not compulsory for your child to use Studyladder at home, however regular access will help your child to reinforce what they have learnt in school. It will also help to build their confidence through practice.

Safe Internet usage

Studyladder is designed to prevent bullying and does not allow student access to social networking. Your child will NOT be able to chat with anyone via Studyladder. However, we encourage you to supervise your child at all times when using the Internet.

Recovering previous rewards and points

Students can recover their rewards and points from any previous accounts. To do this, students should log into their NEW school account, click on the HELP TAB and select RECOVER OLD POINTS. All of their past rewards will be recovered. This will also upgrade their new account if the previous account had premium access.

Accessing Studyladder from home

1. Go to www.studyladder.ca
2. Login using your child's school username and password

Parents have the option to sign up for a free home account with the same limited access that the school has. This can be linked to your child's school account to view their certificates and results. Studyladder does not charge for this service. It is optional for parents to upgrade to full access version.

If you have any questions or require assistance, please email support@studyladder.ca

Kind Regards

Your child's access details (optional for student to complete)
